8 September 2015

Dear Somerset West Bird Club

As the end of the year is fast approaching the Bus Project (HEEP) would like to share some wonderful educational outings with you that took place this year.

Your donation has made it possible to transport 935 learners to various educational destinations where they interacted with nature and deepened their understanding and knowledge of our natural world.

Learners stood in awe of the beautiful Fauna and Flora in the Helderberg Nature Reserve, looked through magnifying glasses at the intricate relationships in the Fynbos Biome and learnt about Climate Change and its influence on our Planet and that "Soil is Life!"

Educational Outings 2015

Sikutale Creché - arriving to celebrate Arbor Day.

Oklahoma Primary School – Soil is Life!

Rosendal High School - stood in awe of the beautiful Fauna and Flora

Your contribution towards the Bus Project is very important, without it our previously disadvantaged schools would not have had the opportunity to experience the wonders of nature and learn about the importance of conservation.

In the words of a learner 'it was the best day of my life!'

Yours Sincerely

Freya Brett – Project Manager

Project supported by: Somerset West Bird Club, WESSA, Friends of the Helderberg Nature Reserve, Children of the Universe Foundation, Helderberg Sunrise Rotary Club and Private Sponsors.
